

Download Tokopedia on Playstore / App Store

1. Write a Test Script (Positive and Negative Case) -> Unlimited:
 - a. Sign up
 - b. Login
 - c. Upload profile
 - d. Product Purchase by bank transfer or virtual account
 - e. Product purchase by OVO or Gopay
2. Write down the Pre-Condition or Assumption that you used in writing the test script.
3. Find the defect in the following form:

A screenshot of a web form titled 'New Registratio'. The form has a light blue header and a yellow background. It contains several input fields: 'Choose User Id' with the value 'T\$1Dw_5&', 'Password' with '*****', 'Confirm Password' with 'hello123', 'Name' with 'Tester1.1 and Tester 1.2', 'Email' (empty), and 'Country' with a dropdown menu showing 'India'. A red note next to the email field says '(Requires verification. Will not be published.)'. At the bottom, there is a CAPTCHA image showing the number '4' and a text input field with the value 'r'. A 'Register' button is located at the bottom right.
